NMR studies on dynamic structure of hydrated water molecules in alcohol–D_2O solutions
T. Seto, T. Mashimo, I. Yoshiya (Osaka, Japan), A. Shimizu (Tokyo, Japan), K. Fumino and Y. Taniguchi (Kusatsu, Shiga, Japan) 1
Translational and reorientational single particle dynamics B coefficient for benzene regular solutions
T. Nakagawa (Kyoto, Japan) 11
Excess enthalpy dependence of viscosity B coefficient for benzenecyclohexane regular solutions. Temperature effect
T. Nakagawa (Kyoto, Japan) 21
Temperature effects on absorption bands ν(NH) and thermodynamics of hydrogen-bonded complexes of NH-donors with proton acceptors
V.E. Borisenko, G.Y. Blinkova, L.L. Osipova and Y.A. Zavjalova (Tyumen, Russia) 31
X-ray scattering studies of Palladium(II) and Platinum(II) aqueous solutions
R. Caminite, C. Sadum, M. Basanisi and M. Carbone (Rome, Italy) 55
Theory of the rotational Brownian motion of a linear molecule in 3D: a statistical mechanics study
P. Navez and M.N. Hounkonnou (Porto Novo, Benin) 71

DIATOMIC MOLECULES IN DENSE NON-POLAR SOLVENTS

Preface v

Spectroscopic studies of diatomics in dense non-polar fluids: an overview
M.O. Bulanin (St. Petersburg, Russia), S. Velasco and A. Calvo Hernández (Salamanca, Spain) . . . 107
Vibrational energy transfer between molecules dissolved in cryogenic liquids
C.J.S.M. Simpson, M.L. Turnidge and J.P. Reid (Oxford, UK) 125
Intermolecular interactions and correlation between optical transitions in different molecules
A.P. Kouzov (St. Petersburg, Russia) 133
Dipole moments induced in three interacting molecules
M. Moraldi (Firenze, Italy) and L. Frommhold (Austin, TX, USA) 143

Collisional interference in the infrared spectrum of HD: calculation of the line shape of vibrorotational transitions for HD-He
B. McQuarrie and G.C. Tabisz (Manitoba, Canada) 159
Permanent and interaction-induced far-infrared spectra of CO in dense Ar: a molecular dynamics approach
A. Medina, A. Calvo Hernández, J.M.M. Roco and S. Velasco (Salamanca, Spain). 169
Density dependence of the structural properties and translational diffusion of carbonyl sulphide diluted in monoatomic solvents: a molecular dynamics investigation
D. Dellis and J. Samios (Panepistimiopolis, Greece) 185
Molecular dynamics simulation of HCl in liquid Ar
J.A. Padró and E. Guàrdia (Barcelona, Spain). 199
Molecular dynamics simulation of HCl in liquid CCl_4
A. Idrissi, F. Sokolić and G. Turrell (Villeneuve d'Ascq, France) 215
